WORK EXPERIENCE

Software Developer Expnentia.ai

01/2024 - Present

Exponentia.ai Pvt Ltd

Mumbai

Achievements/Tasks

- Web Development, Python Flask and Django, Flutter
- Project:- 1) Led the development of an incentive and nudging platform for insurance companies aimed at motivating agents and increasing policy sales. Built the application using Flutter for web, while designing and developing scalable APIs with Python Flask to enable seamless cross-platform integrations. Managed the end-to-end CI/CD pipeline for efficient build and deployment processes, and oversaw server infrastructure to ensure reliability and performance.
- Project:- 2) Build Admin Console to manage task assignment to the agents with budget and triggers

Software Developer Botonomics

09/2022 - 12/2023

Achievements/Tasks

- Web Development, React, Python Django, AWS Lambda
- Project :- 1) Implemented a smooth Drag and Drop FormBuilder in React with tracking the position of the dragged element, and updating the UI accordingly. User can add or remove form elements which are updated dynamically. Users can also reorder form components, saving and persisting form data. Once the form is built using GraphQL APIs
